

MAY IS ARTHRITIS AWARENESS MONTH

May is recognized each year as National Arthritis Awareness Month. According to the Arthritis Foundation, more than 50 million Americans are impacted by arthritis, making it the number one cause of disability in the country. In addition to damaging joints, arthritis affects people in many different areas of their body, including their eyes.

See you in Vegas!

Heading to Vision Expo West this year? So are we! We look forward to seeing you in September. Interested in setting up some meeting time with us? Contact your Provider Relations Advocate for more information.

Stay tuned for details about other key conferences that we'll be attending this year.

We Want Your Feedback!

We want to offer you more opportunities to give us your feedback so we can continue to improve. You may have already noticed a new feature in last month's newsletter - the ability to rate certain articles within our monthly newsletter. This, in addition to our annual satisfaction surveys and the feedback you provide at the end of a call with customer service, helps us to focus on areas of improvement and offer you the best experience we can. We'll be sending out more information throughout the year to tell you how you can share your feedback with us and how we are putting your suggestions to work!

As always, we appreciate your partnership and look forward to hearing more from you!

Thank you for your valued partnership!
